BBP

RASD & DD Presentation

Alessandro Burato, Gabriele Crimella, Davide Faccini

Politecnico di Milano

January 14, 2026

POLITECNICO
MILANO 1863

Outline

1. RASD
   - Introduction
   - Overall Description
   - Specific Requirements
   - Alloy
2. DD
3. References
4. Architectural Design
5. Requirements Traceability
6. Implementation, Integration and Test Plan

1 RASD
- Introduction
- Overall Description
- Specific Requirements
- Alloy

2 DD

3 References

4 Architectural Design

5 Requirements Traceability

6 Implementation, Integration and Test Plan

1 RASD
- Introduction
- Overall Description
- Specific Requirements
- Alloy

2 DD

3 References

4 Architectural Design

5 Requirements Traceability

6 Implementation, Integration and Test Plan

Project Background

pippo

1 RASD
- Introduction
- Overall Description
- Specific Requirements
- Alloy

2 DD

3 References

4 Architectural Design

5 Requirements Traceability

6 Implementation, Integration and Test Plan

Project Background

4 Architectural Design

5 Requirements Traceability

6 Implementation, Integration and Test Plan

Project Background

pippo

1 RASD
- Introduction
- Overall Description
- Specific Requirements
- Alloy

2 DD

3 References

4 Architectural Design

5 Requirements Traceability

6 Implementation, Integration and Test Plan

Project Background

pippo

1 RASD

2 DD

3 References

4 Architectural Design

5 Requirements Traceability

6 Implementation, Integration and Test Plan

Proposed Approach

- System architecture
- Key algorithms or techniques
- Tools and technologies

1 RASD

2 DD

3 References

4 Architectural Design

5 Requirements Traceability

6 Implementation, Integration and Test Plan

References

[1] Author, *Title of the Paper*, Journal, Year.

Thank you!
